Health and Behavior Codes for BH Providers

- Health and Behavior codes are for the psychosocial treatment of medical problems. In order to bill for these codes the primary diagnosis addressed in the intervention must be a physical health diagnosis, i.e. insomnia, heart disease, diabetes, psoriasis, etc.

The University of Washington AIMS Center provides information about billing for integrated behavioral health based on our understanding of the rules and regulations from CMS and AMA CPT coding manuals. However, the AIMS Center does not employ Certified Professional Coders and we do not provide direct patient services. Final decisions about billing fall to the compliance department of each practice which bears full responsibility for use of the codes. The AIMS Center shall not be responsible or liable for any claim or damages arising from use of the information provided.
