

Clinic Implementation Team (CIT) Appendix

The CIT meets with AIMS twice monthly, once individually with their implementation practice coach and once as part of a cohort-wide call with a member of the AIMS RMHII team. The CIT Leader and PCP Champion are required CIT members and must attend these calls; all other roles are optional. Some clinics have additional roles attend these meetings regularly, while others invite them as relevant topics arise. Compose a CIT that fits the needs of your clinic.
