

FUNDING OPPORTUNITY: RURAL MENTAL HEALTH INTEGRATION INITIATIVE

Premera is committed to promoting access to quality mental health care in underserved rural communities. The University of Washington AIMS Center is partnering with Premera to train and support rural primary care clinics in launching, expanding, and sustaining integrated mental health care programs.

Core Principles of Evidence-Based Integrated Care

Population-Based
Care

Patient-Centered
Team Care

Measurement-
Based Treatment to
Target

Evidence-Based
Care

Accountable
Care
